Care for Health

F3 Fetal Monitor

Based on our own design language, F3 gets an iF design award for its compact, lightweight and ergonomic design.

With its elegant design, bright color screen, and enhanced functionality, F3 fetal monitor would address the needs of obstetrical departments in both clinics and hospitals. F3 is amazingly lightweight and portable, which makes it suitable for outpatient service. With the latest technologies from EDAN, F3 offers an extensive set of monitoring parameters such as FHR, TOCO, DECG, IUP and fetal movement.

Convenient to Carry or Transport

- Compact, portable and lightweight
- Long life Lithium-ion battery for outpatient service

Easy to Read & Operate

- 5.6" foldable color TFT screen
- Large numeric and waveform display
- Simple workflow with silicone buttons for operations

Advanced FHR Detection Technology

- Signals Overlap Verification to differentiate twins FHR
- FHR signal quality indicator helps optimize the probe position

Flexible Printing Options

- Built-in thermo printer
- Print on 150/152 mm width recording paper
- 1/2/3 cm/min real-time printing speed
- 15 mm/sec fast printing speed for history traces

Powerful Data Management

- 60 hours built-up memory for seamless monitoring
- MFM-CNS network for remote monitoring
- Insight software for data management on PC
- USB port to enlarge storage capacity

USB Storage Capacity

F3 supports USB interface, providing enlarged storage capacity, which is a quite good solution for house call service.

Data Management

With the help of EDAN Insight software, doctors can transmit CTG data from F3 to PC for data management.
